Private Capital Infrastructure

COMPANY

Powderhouse Explorations, Inc.

A Delaware corporation

WHAT POWDERHOUSE IS

Powderhouse builds private capital infrastructure: the institutional intelligence layer beneath private capital allocation. Venture intelligence is the first vertical. The architecture extends across the private capital markets.

WHAT THE SYSTEM DOES

The Powderhouse system preserves the judgment behind capital decisions, links it to outcomes, and compounds it. The record grows; the architecture compounds. Software can be written. Data can be purchased. Talent can be hired. Experience can only be earned.

THE SYSTEM

Massif is the Company's institutional intelligence architecture — the reference implementation of the Telluride Architecture. Powder 9 structures every company into a common representation. GRIT, Elevation Check, Conditions, and PowderMatch evaluate from that foundation, within Massif.

LEADERSHIP

Chad Kagen, Founder · Chief Product & Innovation Officer

Andrew Kagen, Co-Founder · Strategy & Legal

Jeffrey Hoffman, Chairman — Co-Founder and former CEO within the Priceline.com family of companies. Chairman, Global Entrepreneurship Network. Founding Board Member, Unreasonable Group. Co-Founder, Global Business Angel Network.

MARKS

Powderhouse®, Thrive or Die®, and EON® are registered marks of Powderhouse Explorations, Inc. Massif™, Powder 9™, GRIT™, Elevation Check™, Conditions™, and PowderMatch™ are marks of the Company.

Change how capital compounds.
